

Multimedia Center – Hamburg

Object:

The Multimedia-Centre is located in Hamburg-Ottensen and was built in 1997. The office building offers 6500 m² of space where various companies from the media industry are based. The main idea is to help small and young companies to establish themselves on the market with low rents, commercial advices and community facilities such as secretariat, data server and conference rooms etc. CLAGE instantaneous water heaters M3 and M6 are installed at hand wash basins and kitchen sinks. The innovative CLAGE hot water solution ensures low energy cost in an efficient way.
